

Press release

Schroders plc

16 December 2021

Response to media speculation

Schroders plc ('Schroders') notes recent media speculation and confirms that it is in advanced talks with Greencoat Capital, a leading European renewables infrastructure manager, about taking a significant stake in the business. There is no certainty these talks will lead to any final agreement.

Schroders continues to evaluate potential acquisition opportunities in line with its strategy to build a comprehensive private assets platform and enhance its leadership position in sustainability.

A further announcement will be issued as and when appropriate.
